Importing Goods To France

Britannia Moving to/from France

France has always been a popular European destination for people looking to move abroad. Consequently Britannia has been providing regular removal services to this beautiful Country for many years. Many of Britannia's nationwide offices specialise in moving services to France and have weekly deliveries to and from all parts of France. With the support of our relationships with local French removal companies we can also offer site surveys, access to additional resources as well as secure storage facilities in France, allowing Britannia to offer you a complete moving package.

Importing Your Personal Effects

The importation of household goods and personal possessions is duty free if you are relocating from within the EU. However if you are moving to France from a non EU country then importing personal effects is still duty free provided you have been domiciled for at least one year outside the EU, and that you have owned and used the personal effects for more than 6 months. For Non EU imports - duty free entry for used personal effects for a secondary residence is permitted provided the effects have been used for at least 6 months in the origin country, and that the importer owns the secondary residence or has rented it for a minimum of 24 months if the principal residence is not in the EU. These goods are also subject to import tax.

Custom clearance/documentation

France is a full member of the EU, documentation required should be merely a copy of your passport. Britannia will advise you of the requirements prior to your move.

Prohibitions and Restrictions

In general it is in your interest not to import the following items:

- Firearms & ammunition
- Inflammable goods & substances
- Plants & plant material
- Perishables or otherwise
- Alcohol, narcotics and dangerous goods
- Offensive material

Despite the 'free market' of the European Union there are restrictions in transporting some classes of goods across borders and within some countries. Several countries restrict the value or volume/weight of such goods as alcohol, tobacco and cigarettes. Recent changes to legislation in Europe means that it is now forbidden to travel through France in any vehicle carrying more than a minimal amount of cigarettes or alcohol. If a vehicle is stopped and searched and these are found amongst household effects there are large fines plus the costs of delays to the vehicle and costs to any third parties who are thus also affected.
